Blind Corner Base cabinets are 34 1/2" high by 24" deep. The visible width of these cabinets ranges from 13 3/8" to 28" wide.

When placing a Blind Corner Base cabinet near an appliance, extra filler space may be required to clear appliance doors and handles.

Refer to appliance manufacturers specifications for adequate clearance requirements.

Inset toe kick construction requires BTK8 matching toe kick – must be ordered separately.

When a Blind Corner Base cabinet is used in a design, remember to include the appropriate filler. For a finished, decorative look add an Overlay Filler (Full Overlay Door Styles) to Universal Fillers or Decorative Blocks to a Fluted Beaded Filler.
