Corner Wall cabinets range in height from 18" to 48".

Corner Wall cabinets must be ordered hinged left or right.

To ensure proper door function, cabinets or other design elements deeper than 12" should not be placed on either side of the Corner Wall cabinet.

If the Corner Wall cabinet is deeper than the adjacent cabinets, fillers are recommended for placement left and right of the Corner Wall to ensure proper door operation on standard depth wall cabinets.

For a finished, decorative look add Overlay Fillers (Full Overlay door styles) to Universal Fillers or Decorative Blocks to Fluted Beaded Fillers.
